Yeah it's a bit tricky with the oil and gas sector!! Can you send them a holding message for now saying that note the kind offer and are developing our partnering and sponsorship strategies and will be in touch in due course etc...

Many thanks,

[REDACTED]

Hi [REDACTED] please protect, see below from Equinor. I haven't seen the sponsorship strategy so any steer welcome.

Given frequent international travel and childcare responsibilities I may send emails outside of normal UK office hours. There is no expectation on others to follow the same working pattern.

Hi [REDACTED]

I know you are still thinking about the role of business at COP26. I will be making a pitch to our board for our engagement, with a first discussion next week.

If I was to ask you - ball park – how much money you would like from us, for what, and with what visibility for us, what would you say?
